Emails: [cortinovis@cortinovisamerica.com](mailto:cortinovis@cortinovisamerica.com)  
Websites: [www.cortinovisamerica.com](http://www.cortinovisamerica.com) (this page has links to all the sites of the group)

Cortinovis America, LLC is part of the Eurolls Group, Attimis (UD), Italy and represents all the members of the Group in North America. The Group results from the combination and interaction of several business activities, which individually are greatly specialized in specific areas of expertise. Eurolls Group carries on numerous activities which can be grouped in four fields as follows: Machinery Manufacturing Division, Special Services, Wire Products Division, and Customer Care and After-Sales Service Division. The Machinery Manufacturing Division specializes in manufacturing machinery for the wire industry, and it includes the following companies:

Eurolls – Wire Machinery Division: Engineering and manufacturing of special machineries such as electro-welded lattice girder lines, motorized rolling lines, wire pointing machines and butt welders. The wire products division also manufactures rolls and accessories used on all machineries produced by the companies in the Group.

Team Meccanica: Manufacturer of drawing machines, revolutionary high speed rolling lines for special materials, steel wire patenting machines, steel cord and twisting equipments, payoffs and take-ups, and rewinding equipment

Vitari: Manufacturer of straightening machines for steel and non-steel wires; machines for the manufacture of chains, nails, gabions and mesh nettings for fencings; machines for barbed wire; and additional components for its complete manufacturing program.

Cortinovis Machinery: Manufacturer of all kinds of rotating machines for power cables, telecommunication cables and steel ropes.

Teurema: Manufacturer of cold rolling lines, multi-pass dry drawing lines, horizontal and vertical spoolers, static coilers, pay-offs, and take-up lines for single usage or as complement of lattice girder machines or welded mesh machines, as a part of the wire industry process.

**Madem Reels USA, Inc.**
