Our products and technologies help make braided wire harnesses the preferred choice for industries. EY Technologies is a family owned company, established in Fall River, MA, USA, with corporate headquarters in Pine Bluff, AR, USA. Our core business strives to be the world's leading innovative and technical producer of quality custom-designed yarns essential to production in the braiding, knitting, weaving, mutli-axial laminating and other process industries. We produce linear composite materials based on man-made fiber substrates, usually treated with polymeric systems to enhance functional properties. Extrusion coated yarns with PVC, HP, TPE, PVDF, etc. compound with proprietary additive. FIBERS- Para-Aramid KEVLAR®, Meta-Aramid Nomex®, Basalt, Carbon, Fiberglass, Nylon, PET Polyester, Polyethylene, Stainless etc. RESINS – Nylon, Polyester, PEI, Polyethylene, Polypropylene, PVC, PVDF etc. *"Proudly Made in the USA with a Global Distribution Network to serve you"* WE DON'T MAKE YARNS, WE MAKE THEM BETTER!™.

WCISA is a nonprofit corporate membership organization of North American suppliers of machinery, materials and accessories used for making all types of wire and cable. Members are based or have an established subsidiary in North America. WCISA's mission is to promote its member's products and services by providing member companies with representation, networking/social opportunities and services at wire and cable trade events and conferences. WCISA is active, both as an exhibitor and supporter, in wire and cable trade events and conferences throughout the world. WCISA also offers three types of scholarships to its member companies.

Details and a member list can be found at [www.wcisaonline.org](http://www.wcisaonline.org).
