WCISA® Celebrates 30 Years: Members Ready for 2026

WCISA® · Wire and Cable Industry Suppliers Association®

- the nonprofit corporate membership association of North American suppliers of machinery, materials and accessories for making all types of wire and cable, celebrates its 30th anniversary in 2026 and it reports, "In 2026, WCISA member companies expect steady industry growth, especially in regions close to home. The global wire and cable market is projected to expand throughout the year, about 3-5% overall, and possibly higher in key areas, including electrification, renewable energy, EV infrastructure, broadband and data centers. Standard and stable sectors that don't get headlines should not be overlooked.

"WCISA members' involvement in trade events next year, including *wire 2026* in Düsseldorf, *Wire Expo 2026* in Milwaukee, *wire China 2026* in Shanghai, *wire India 2026* in Mumbai and the *2026 IWCS Forum* in Orlando, offers prime business opportunities.

"Challenges include volatile raw material prices, tariff uncertainty, inflation, supply chain disruptions and shortages, labor scarcity, sustainability regulations and geopolitical tensions.

"Uncertainty has become the norm, so WCISA members are ready for 2026's challenges and opportunities."
